

## Sell Your Products On-Line Easily and Efficiently

With a Proven Microsoft Dynamics NAV Add-on Solution  
Designed for Convenience and Speed in B2B Trading

### ➔ The Smart Web Store for Dynamics NAV

- Uses your business logic and data from Dynamics NAV
- Real-time inventory levels
- Per-customer pricing and discounting
- Full ordering and financing history
- Multi-currency and multi-language

### ➔ Start Selling On-Line Right Away

- Runs out-of-the-box
- Comes with preconfigured setup
- Uses your existing data and Dynamics NAV setup
- No infrastructure requirements with the Cloud option
- Easily customizable for specific business needs

### ➔ One-Click Workflows in Dynamics NAV

- Order receiving and processing
- Backorder splitting and processing
- E-mail customers regarding the orders
- Customer registration processing
- Customer authorization

### ➔ Best Value with the Cloud Option

- No up-front license investment
- Improved cash-flow with Software as a Service (SaaS)
- Next to unlimited scalability
- Seamless upgrades and enhancements
- Savings on infrastructure, implementation, and support

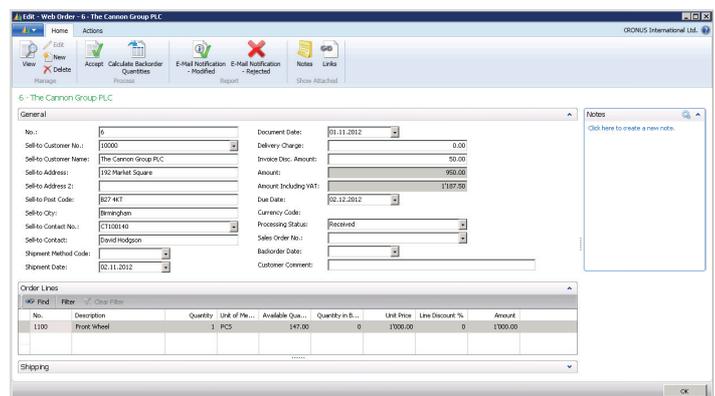

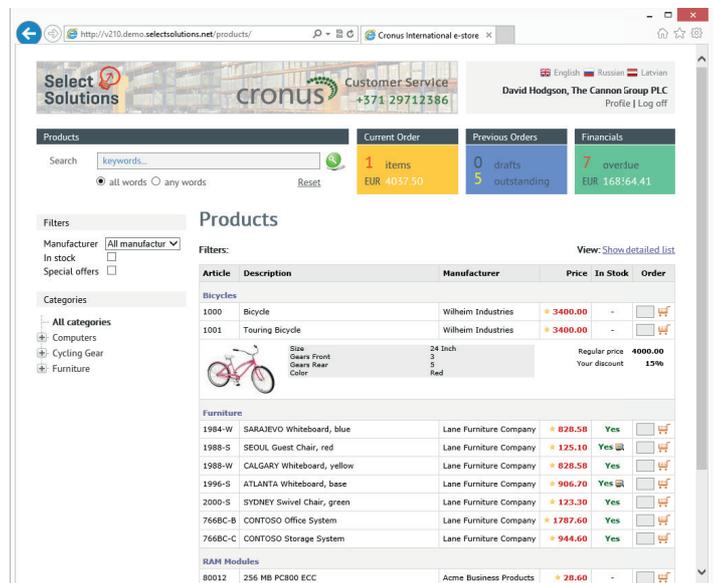

### ➔ Best Value with an ISV Solution

- Independent Software Vendor - focus on quality software
- The model promoted by Microsoft Corp.
- Many years of relevant know-how and field experience
- Approved by solid and growing customer base
- New releases on regular basis, fully documented

"After a year of using E-Commerce B2B by Select Solutions, we are still excited about the ease and convenience the solution provides for us and our customers. Our online selling challenges are just solved, and we have now advanced to automating our processes at the next level."

Māris Kalniņš, CEO at Hegel SIA
