# POINT-IN-TIME RESTORE

## Azure SQL's automatic backup system:

1. Every week: full backup
2. Every day: two incremental backups
3. Continuously: transaction log backup

It's automatic (no need to opt in).  
It's free.

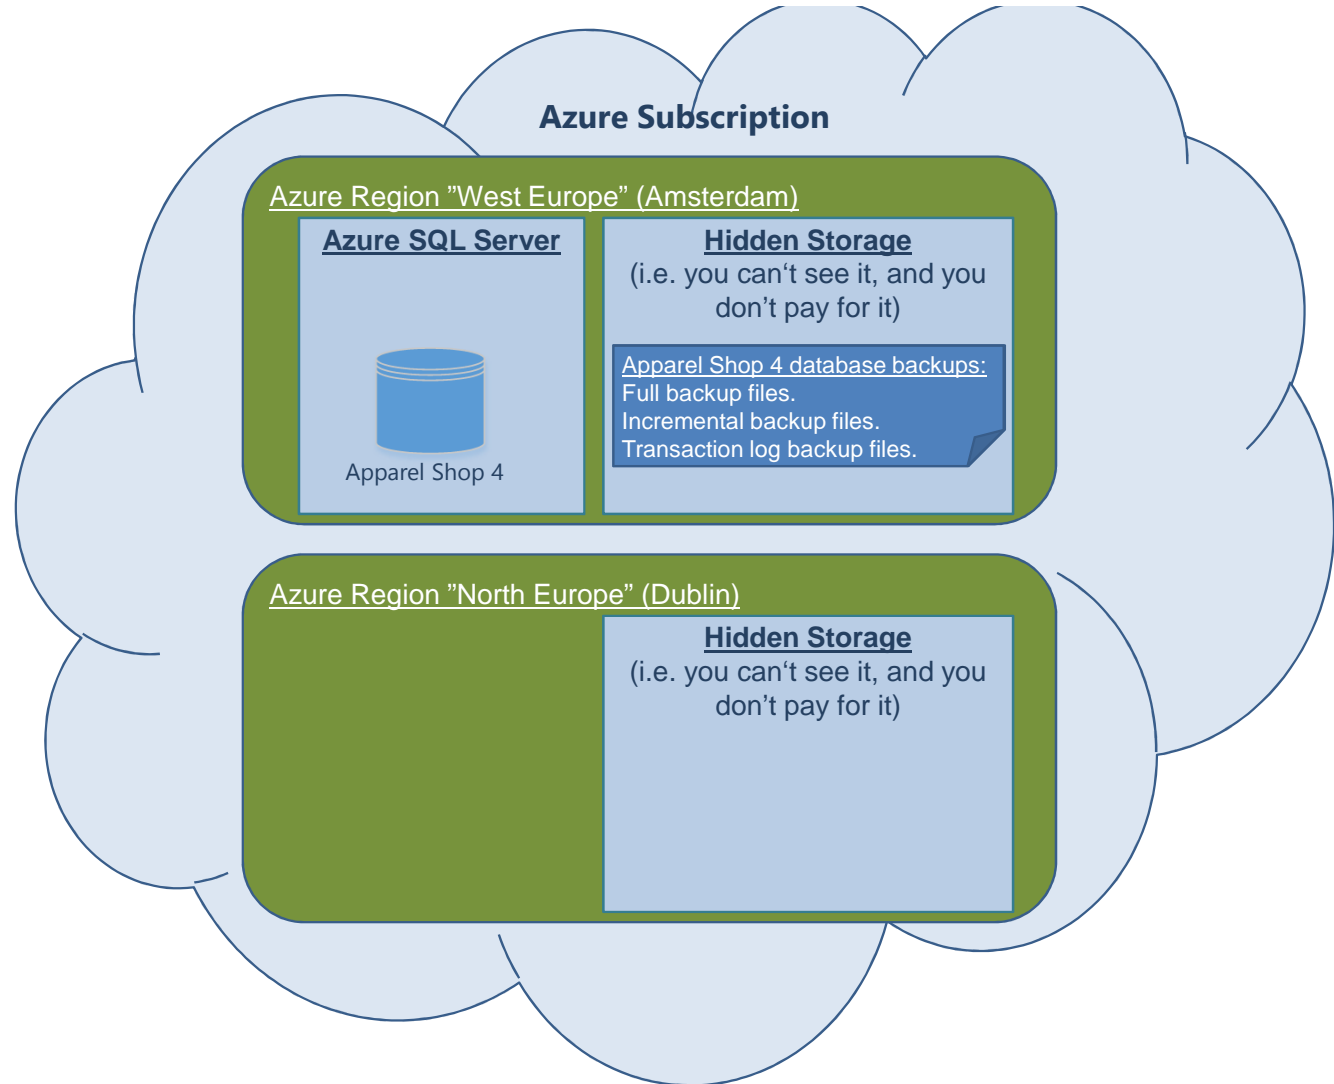

# GEO-RESTORE

## Azure SQL's geo-restore system:

Backups of backups, in "mirror region".  
The regional backup may be up to 1 hour old.

It's automatic (no need to opt in).  
It's free.

**ONE MONTH LATER...**
