

## Qiji Mobile- Better Business with Mobility

### Access Microsoft Dynamics NAV via Smartphones Anytime, Anywhere

Qiji Mobile brings business mobility by empowering users to access Microsoft Dynamics NAV through iPhone, BlackBerry, and Windows Mobile

Qiji Mobile improves mobile workers' productivity and maximizes usage of Dynamics NAV by offering anytime, anywhere capability. Whether you're between meetings, on a trip, or simply away from the office, you can be sure that you have real-time, accurate information on hand when you need it.

### Boost Productivity

Qiji Mobile enables businesses to enjoy improved workflow and offers the opportunity for them to provide better customer service. Many people solely depend on accurate information to make timely business decisions, but find it not easy to react immediately. Qiji Mobile, proven to be an invaluable addition to productivity arsenal, gives Dynamics NAV users the ability to respond quickly and resolve issues right away. Qiji Mobile streamlines business processes irrespective of time and location.

### Sell More and Perform Better

The key to effective selling is timely response based on helpful information. Qiji Mobile facilitates both selling more and performing better. Business professionals are unable to stay in the office checking data all the time, however, they can simply carry the data with them. When interacting with clients, data is always synchronized to present the most accurate information to clients. Powered by advanced technology, Qiji Mobile makes it possible to close more sales on-the-fly and obtain promising leads by allowing sales professionals to go through the inventory data, delivery schedule, pricing, customer contacts, orders, and other data whenever it is needed.

# Take Your Business on the Road

Drive business and create anytime, anywhere productivity with advanced mobile computing technology. Qiwi Mobile enables you to access critical business data within Microsoft Dynamics NAV including, but not limited to:

- Sales Orders
- Transactions
- Order Delivery Status
- Quotes
- Inventory Availability
- Service Management
- Job Management
- Customer Relationship Management
- General Ledger Information
- Various ERP modules and functions

## Salespeople– sales effectiveness

Qiwi Mobile enhances sales effectiveness by allowing salespeople to quickly respond to inquiries and expedite orders for customers. Qiwi Mobile allows salespeople to check accurate, real-time information, such as pricing and inventory availability, and to enter orders, quotes, and purchasing information. All of the jobs can be done immediately in smartphone.

## Service Professionals– better customer satisfaction

A service professional can use Qiwi Mobile to review service orders, enter consumptions to the service job, check the availability of service parts, enter the amount of time spent on jobs, and etc. Service professionals and companies benefit from Qiwi Mobile in terms of a faster, more efficient business process which ultimately results in better customer satisfaction.

## Decision Makers– reach business success

Having tight schedules, managers and C-level executives need to organize work efficiently and be well-informed. By using Qiwi Mobile, you'll be able to make decisions when an issue arises, review project status, financial reporting, or assign jobs when you're on a trip, on the road, and between meetings. Qiwi gives decision makers full control and helps to reach business success.

" Qiwi saves me time and allows me to close more deals because I can respond to my customers' needs faster than ever. "

- J.K., Sales Manager,  
Inc 5000 company
