Navutilus Object Move

UtilitiesOnly™ for Navision® Users & Developers
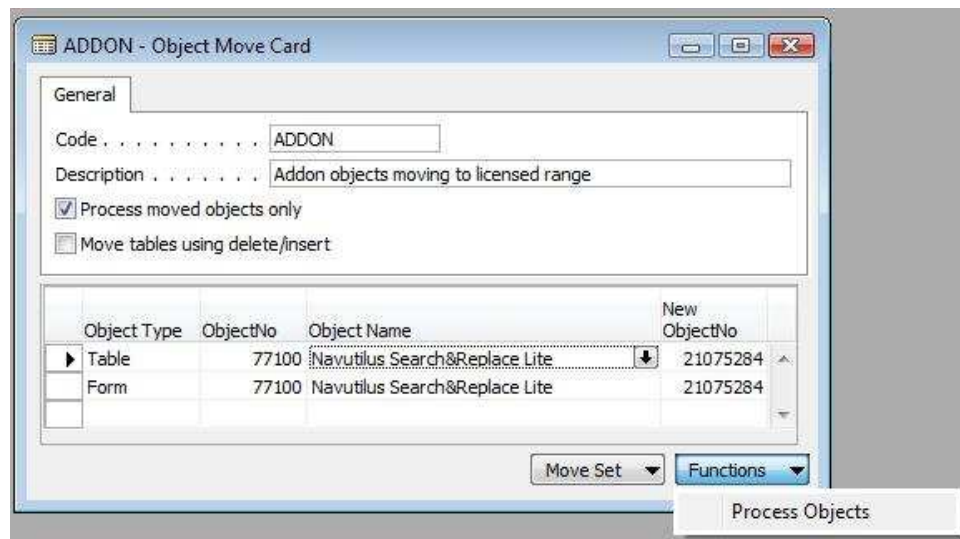

Powerful & handy tool

*Warning: The utility intended for sophisticated
and responsible users due to its eminent operation power!*

"Move" the Navision objects within license diapason via changing their IDs –
with relevant change of references to those objects from other ones.

Navulilus Object Move can be useful for:

- Entire or partial project rearrangement
- Bringing object IDs to conformity with another license permissions
- Rearrangement object IDs in logical and functional combinations
