NEMO

Nav Executive Management Overview

Nemo is a unique solution from Maritech that empowers all levels of your organization to meet and exceed performance targets through aligning day to day business activities with corporate goals and objectives. This is achieved by presenting Key Business Indicators along with management information in a simplified and standard format. Nemo provides management with the tools for quick, decisive and accurate decision making that is crucial for success in today's business environment. NEMO is a Microsoft certified business solution and available worldwide.

Table with columns: Item, Name, Total Sales, Total Cost, Total Profit, Total Revenue, Total Expense, Total Income, Total Assets, Total Liabilities, Total Equity. Rows include various items like 1000000, 1000001, 1000002, etc.

Table with columns: Salesperson, Name, Sales, Cost, Profit, Revenue, Expense, Income, Assets, Liabilities, Equity. Rows include salespersons like 1000000, 1000001, 1000002, etc.

Table with columns: Report Name, Description, Date, Status. Rows include reports like 1000000, 1000001, 1000002, etc.

NEMO offers the following benefits

- Unlocks the power of information scattered throughout the Nav system with analysis of creditors, customers and inventory all accessible in a single view.
- Turnover rate of inventory, sales history and credit history of customers.
- Which products are your customers buying? How efficient are your vendors when time and cost are critical factors?
- ABC (Activity Based Costing) analysis of inventory, customers, and creditors.
- Real sales made by sales representatives, with detailed analysis of costs.
- Analyse success rates/performance of sales representatives, products, vendors, and company divisions.
- Reports sent to managers at preset times/dates/intervals.
- Graphical support of publishing and reporting services.
- Report publishing of key numbers in NAV.
- Accessible via Internet – wherever and whenever.

To run NEMO you need:

NAV Version 4.0 or newer to use the NAV part of NEMO
To use reporting services part of NEMO
SQL 2005, and be able to run Reporting services

Base NAV license needed if you use BRL license: 410 Full Access BRL BE User (1) or 420 Full Access BRL AM User (1)

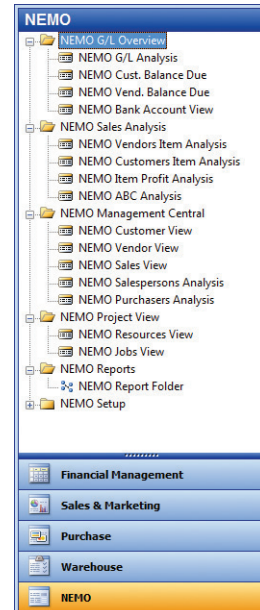

Base granules used, if not BRL licensing:
3010 Basic General Ledger
3260 Basic Receivables
3270 Sales Invoicing
3280 Sales Order Management
3510 Basic Payables
3520 Purchase Invoicing
3530 Purchase Order Management
4010 Basic Inventory

NEMO - Solution for everyone

NEMO collects data from various areas of Dynamics NAV; including finance, customer and inventory records. It presents information in one location – providing a clear and instant picture of business operations. The NEMO system is easy to set up and operate on the standard base platform provided by Dynamics NAV. The software uses newly developed functionality for rapidly collecting and calculating vital data such as cost ratios - allowing you to view a true gross profit margin of product sales in real time.

- With NEMO all key information on customers, creditors, inventory, sales people, bank accounts and cash flow, become accessible and understandable – in one location.
- NEMO is a solution for organizations of all sizes – from small companies to large enterprises.
- NEMO incorporates the Microsoft Dynamic NAV – leading edge technology bundled with the latest technology in data publishing such as Reporting Services and Share Point.
- NEMO offers analysis of data, sales history and report production, and more.
- You can access NEMO from the Internet - wherever and whenever you need.
