

Navutilus Dataport Make

UtilitiesOnly™ for Navision® Users & Developers

Fast & handy tool for export/import Navision tables' data

Save time & money with Navutilus Dataport Make. The utility intended for fast dataport generation. Now you need only to define table set, dataport options and click "Create Dataport Object" function.

You can create dataport with very useful properties:

- export/import data from/to all database' companies
- export/import BLOBs without any programming
- clear tables after export, if needed
