SD Reminders

for Microsoft Dynamics™ Nav

Automate & Manage your To-do actions

What is SD Reminders

SD Reminders allows the end user create a set of future reminders based on existing Nav data.

SD Reminders allow you create reminder events based on;

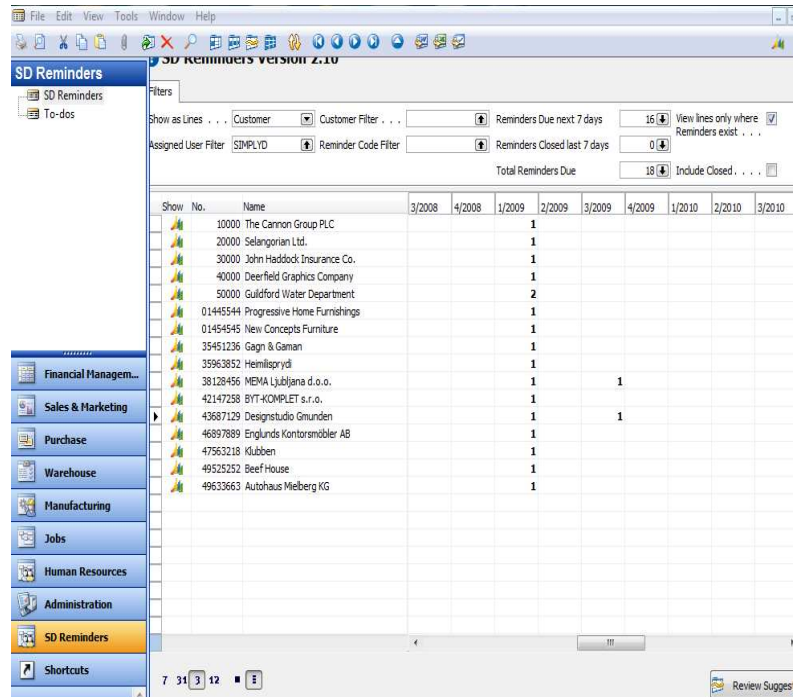

- Customers.
- Sales Documents.
- Customer Entries.
- Suppliers.
- Supplier Documents.
- Supplier Entries.
- Items.
- Item Ledger Entries.
- Contacts.

You can assign these tasks to users, create follow-up events, email the reminder or synchronize to MS Outlook.

Some sample uses are;

- Maintenance Renewals.
- Notify Customers who bought Item A that Item B is available.
- Reminder on open sales quotes for sales people.
- Prompt on Late deliveries.
- Reminders for Overdue invoices.

The above are just a sample of the possible applications.

What do You Get

Our Builder range products offer the following:

1. Emailed FOB with full import instructions.
2. Clear User Guide.
3. Web Tutorial.

How to deploy

1. Once we have confirmed your order details we will email you a FOB. Follow the instructions and import.
2. Then add your new feature to your preferred menu.

Optionally

You can use our services to re-number the add-on to an available free object range on your license or request us to perform a remote installation.
