Version 2.2.0

SD Haulage

for Microsoft Dynamics™ Nav

Control Your Haulage Billing & Costs

What is SD Haulage

SD Haulage allows the end user estimate and auto create haulage invoices. It also allows the use of Charge Items with Automatic assignment or G/L accounts.

SD Haulage runs on the following shipment movements:

- Sales Shipments.
- Purchase Receipts.
- Return Orders.
- Transfer Orders.

Users can easily estimate the haulage cost for a period for each haulier based on either a haulier rate card or a quoted value entered on each order/document.

Use SD Haulage to:

- Reconcile invoices.
- Auto create invoices.
- Auto apply Item Charges.
- Control haulage rates.
- Quick link to source shipment documents.

Line No.	Document Type	Document Number	Transaction Date	Show Unposted	Unposted Invoice No.	Haulier Code	Rate	Correct
