

## **We love Microsoft Dynamics NAV!**

We want everyone who loves Microsoft Dynamics NAV to help make it an even better product. We created a way to crowd source product suggestions at [www.ilovenav.com](http://www.ilovenav.com). We intend to provide this feedback to Microsoft to give them additional insight into the needs of the Microsoft Dynamics NAV community for upcoming product releases. We also hope that Microsoft Dynamics NAV Partners and ISVs will join us in picking specific suggestions to create solutions free of charge for this community. Please help us build this vibrant community and to make Microsoft Dynamics NAV an even better product.
