

Route Planner

DESIGNED FOR MICROSOFT DYNAMICS™ NAV

BENEFITS

- Operate Route Planner directly in the existing Microsoft Dynamics™ NAV
- Create the most efficient delivery routes by a few clicks
- Plan routes for sales visits
- Deliver more while saving time, miles, and fuel expenses
- Deliver orders before a specific time
- Improved customer satisfaction
- Increased delivery efficiency

OPTIMIZE DAILY DELIVERY ROUTES AUTOMATICALLY

Fully-integrated with Microsoft Dynamics NAV, SimCrest Route Planner is a smart and easy-to-use tool designed to help warehouse managers optimize daily route-planning processes. Route Planner automatically determines the best route for each truck and provides drivers with detailed driving directions and maps. With Route Planner, you can enjoy less transportation costs, increased delivery efficiency, and improved customer satisfaction.

HOW IT WORKS

Truck Order Planning

Shipment Date: 10/05/09
Truck Code:

Document Type	No.	Sell-to Customer Name	Shipment Date	Truck Code	Gross Weight	Gross Volume	Ship to City
Order	1003	B13 Home LTD	10/05/09	T1	599.65	8.75	Arlington
Order	1004	B2 HF Holding	10/05/09	T1	556.12	1.89	Irving
Order	1005	B3 HE LTD	10/05/09	T2	525.00	6.25	Irving
Order	1006	B4 MT LTD	10/05/09	T2	2,508.50	87.00	Carrollton
Order	1007	B6 RR	10/05/09	T2	799.90	12.90	Dallas
Order	1008	B7 SC LTD	10/05/09	T1	1,220.00	15.00	Dallas

Code	Description	Weight Limit	Total Order Weight	Remaining Weight	Volume Limit	Total Order Volume	Remaining Volume	Number of Orders
Truck 1		4,000.00	1,835.77	2,164.23	80.00	25.55	54.45	3
Truck 2		5,000.00	3,833.00	1,167.00	100.00	105.75	-5.75	3

View orders, trucks, weight, and volume all in one form

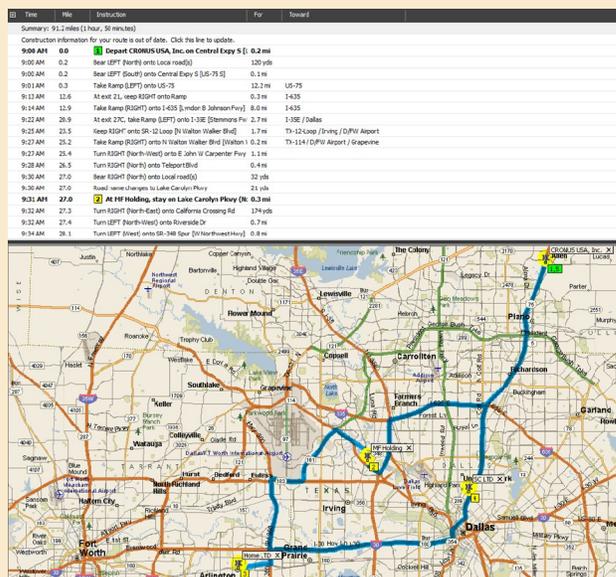

Route Planner enables you to plan order delivery based on shipment date. You can view orders, assign truck to each order, and view gross weight and volume of each order in the truck order planning form. The system automatically calculates the total weight and volume of each truck for you and tells you remaining weight and volume. If a truck is overweight or overloaded, you are able to move orders from one truck to another or change the assigned truck to keep the truck within limit.

Create routes by a few clicks

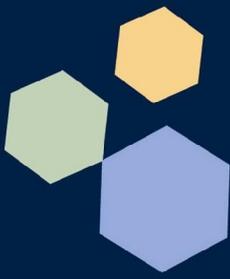

To determine the best delivery routes, just click a few buttons to create routes for each truck and optimize route orders. You can always add another stop by choosing Order or Customer to make each truck more efficient. To better serve your customer, Route Planner even allows you to deliver an order before a specific time.

Deliver orders efficiently

Integrated with Microsoft MapPoint 2010, Route Planner allows drivers to have clear driving directions with highlighted routes and stops displayed on a map. You can send directions to mobile devices or GPS if needed. Route Planner also provides you with the truck order packing sheet, helping you to load truck in reverse stop order.

Other Add-ons from SimCrest®

DESIGNED FOR MICROSOFT DYNAMICS™ NAV

PRODUCT CONFIGURATOR

Benefits:

- Assists your sales Department in selecting the right configuration for your clients
- A Production Configurator to help you manufacture a specific production BOM and routing, or Kitting
- Support an indefinite number of levels in the questionnaire
- Available with Web Enhancement Integration

CASH BASIS ACCOUNTING

Benefits:

- Cash Basis Accounting at the click of a button.
- Utilize Account Schedules for powerful financial reporting.
- Seamlessly Integrated with Dynamics™ NAV
- Does not replace Accrual method in Dynamics™ NAV but rather allows for both Accrual and Cash Basis viewing of your books.

AUTO EMAIL

Benefits:

- Never again will you have to print and mail documents
- Print documents in HTML or PDF Format
- Save on costly pre-printed documents, postage, and envelopes
- Include logo's and other graphics in the printed documents

CREDIT CARD MANAGEMENT

Benefits:

- Process Credit Cards directly in Dynamics™ NAV
- Everything is handled in Dynamics™ NAV
- No External Terminal is necessary
- Payments can be automatically posted
- The system handles separate authorization and capturing of funds
- Will handle credit cards on all sales documents as well as stand-alone (no document)

PRINT-2-EXCEL®

Benefits:

- Print (export) any Dynamics™ NAV report or document to Excel®
- As easy as clicking the Print button
- No need for Dataports
- Works for all Dynamics™ NAV reports and documents

QUICK PAYROLL

Benefits:

- Fully functional US and CA payroll integrating to Dynamics™ NAV G/L and Bank Ledger
- All federal and state reports included
- Keep track of upcoming events like when to file and pay taxes
- File and pay payroll taxes electronically with subscription
