Features for Austria

This information is an overview of a feature for Microsoft Dynamics™ AX that is specific to users in Austria. It includes a description of the feature and the name of the form that is affected by the feature. The feature is available only if the configuration key for Austria is selected.

The following feature is discussed:

- Cross border services quarterly report

Cross border services quarterly report

Beginning in 2006, companies must report – per country – incoming and outgoing cross-border services on a quarterly basis to the Austrian government. Each company also must submit a yearly report with detailed information about the type and amounts of services received.

Form for this feature

Refer to the following information about the form in Microsoft Dynamics AX that you will use with this feature.

Form name and locator	Description
Cross border services (report) General ledger > Reports > External > Cross-border service	Prepare a report about incoming and outgoing cross border services, countries, and the net amounts of the services that were provided.
