Features for Malaysia

This information is an overview of a feature for Microsoft Dynamics™ AX that is specific to users in Malaysia. This feature is available only if the configuration key for Malaysia is selected.

Post-dated cheque report

You can issue and receive post-dated cheques (PDCs) to make payments and to receive payments in countries and regions in Southeast Asia. The post-dated cheque transactions are included in the **Customer balance list with payments in transfer** report, but are not included in the balance amount until the date of the cheque.

Report for this feature

Refer to the following information about the report in Microsoft Dynamics AX that you will use with this feature.

Report name and locator	Description
Customer balance list with payments in transfer (report) Accounts receivable > Reports > Status > Customer balance list with payments in transfer	Print a customer balance list, including cheques with a future payment due date and cheques with a Sent , Approved , or Rejected payment status.
