

PRODUKT INFORMATION

TRADORIA ONLINESHOP INTERFACE

MICROSOFT DYNAMICS NAV

**The Tradoria Onlineshop interface helps you to optimize your sales order process.**

- **Import and manage sales orders incoming from your Tradoria Webshop:**  
Creates automatically new sales orders, customers and a new shipment address if required.
- **Shipment and dispatch handling:**  
By posting a delivery you can automatically create shipment labels to Tradoria DHL special conditions, it can also interact with other shipment solutions (e.g. UPS, DHL EASLOG)
- **Inventory management:**  
Send your stock of inventory to your Tradoria Webshop. You should do this periodical to keep your listings up to date.
