SD Surveyor

for Microsoft Dynamics™ Nav

Manage and Communicate Your Nav Custom & Modified Objects.

What is SD Surveyor

SD Surveyor is designed for both Dynamics Nav Users and Partners.

It is designed to facilitate the control and communication of modified objects free licensed object sets and user key license information.

With no installation overhead, no user training required and a easy export function you can now keep partners or developers up to date with your current object position.

SD Surveyor is a must have tool for sites with active development requirements.
