Anveo Mobile

Mobile access to Microsoft Dynamics NAV

With Anveo Mobile you always have your business data at hand with a locally installed app on your smartphone or tablet PC. Synchronize selected data on your device always have access to your customers' data and item information and be independent of network availability. Enter your orders while you're on the road and edit them any time you want to.

With Anveo Mobile you always have your Dynamics NAV data at hand.

Discover a new dimension of independence: with Anveo Mobile you have your Dynamics NAV ERP-data at hand – anytime at any place – regardless of network coverage and wireless network availability - on the train, in a plane or at your customers. All data is saved on your device and later will be synchronized with your Dynamics NAV.

Experience quality: the clearly structured interface is quick, simple and intuitive to use and adjusts automatically to various resolutions and alignments. The data processing in Dynamics NAV is conceived for complex synchronization scenarios like temporary number series and manual or automatic conflict management.

Experience simplicity: Anveo Mobile is an easy-to-use tool, granting you a wider scope of usage scenarios. With Anveo Mobile you can create an app for your field workers, service technicians, customers or suppliers in just a few minutes – in your familiar environment directly in Microsoft Dynamics NAV. Define the app layout with just a few mouse clicks, without any programming. You can use our existing templates for fast solution development or you can build your individual solution from scratch.

Your own App

Anveo Mobile offers a very flexible interface set-up, so you can personalize the appearance of your app and perfectly design the processes to your needs.

Free device choice

Choose your device freely: Anveo Mobile runs with various devices and operating systems like Windows 8 phones/tablets, iPhone/iPad or Android.

Maximum compatibility

Anveo Mobile supports Dynamics NAV 2013 and Dynamics NAV 2009 SP1/R2. And with a technical update of previous versions from Navision 3.6 are applicable even without Pages.

Flexibility

The Anveo Mobile development environment offers flexible customizability: Determine the synchronization process and the behavior in case of conflict in the well-known Dynamics NAV programming environment.

Automatic on/offline mode

The connection to the Dynamics NAV System is maintained in the auto-connection-mode to guarantee up-to-date data. You can continue your work even in case of a temporary connection loss - all input is cached and automatically sent to Dynamics NAV when you regain connectivity.
