

List of Features	Capacity Planning from Relay	Standard Navision	Other Add-on Products
Master Capacity Planner with 12 interactive views	Yes	No	???
Allows each of the 12 views to have different settings (Dates and Periods)	Yes	No	???
Work Center Capacity vs. Load Viewer	Yes	No	???
Work Center Group Capacity vs. Load Viewer	Yes	No	???
Machine Capacity vs. Load Viewer	Yes	No	???
Instantly see Daily, Weekly, or Monthly Views	Yes	No	???
Save your default control points to view at one time	Yes	No	???
Allows you to instantly include Past Due in first week Load	Yes	No	???
Drill down into Prod. Orders to see what orders are causing bottlenecks	Yes	No	???
As Production Orders are changed, views instantly change to reflect	Yes	No	???
<b>Gives recommendations on capacity based on current load</b>	Yes	No	???
<b>Allows users to adjust each periods capacity &amp; View effect</b>	Yes	No	???
Instantly updates when any changes are made	Yes		???
Scrolling of views to look forward and backwards easily	Yes	No	???
Detailed views provide suggested resource levels to meet demand	Yes	No	???
Interactively Update Capacity to see the effects on Bottlenecks	Yes	No	???
System is 100 % Native Navision Code (C/AL)	Yes	N/A	???
Easily Integrates with V3.7, 4.0, and 5.0 - Installs in less than an Hour !!!	Yes	N/A	???

The screenshot displays the Navision Capacity Planning software interface. It features several interactive views for different work centers: NOTIONS (Notions Area), BCU (Block Cutting), MCT (Machine Cutting), SURGE (Surge Prep), and TOP (Top Stitch). Each view includes a bar chart showing capacity usage over time, with options to include past due items and adjust the first week's capacity. A central window titled "Prod. Order Capacity Need" displays a table of production orders with columns for Status, Prod. Order No., Item, Description, Oper. No., Alloc. Time, Date, and Time Typ.

Status	Prod. Order No.	Item	Description	Oper. No.	Alloc. Time	Date	Time Typ
