Pay-per-use

MultiLanguage Tool Web service

Introduction

Pay-per-use

Multi Language captions

- Microsoft Dynamics™ NAV database updates/upgrades/migrations are necessary from time to time
- Object IDs are often changed after updates
- Customized Multi Language (ML) captions get lost
- Recurrent work after every update
- Difficult to track changes and customizations

MultiLanguage Tool Web service

Product overview

Pay-per-use

Solution

- Automated detection of all changes in Microsoft Dynamics™ NAV database object IDs between two versions
- Automated identification of changes according to categories:
 - Not in old version
 - Not in new version
 - Object ID changed
- Predefined default actions for standard cases
 - Reduces efforts significantly

Benefits

- 100% reliable detection of differences between ML captions
 - Increases update/upgrade security
 - Erases error-proneness
- Avoids recurrent work on future versions
 - Multi Language captions do not have to be merged again and again
 - Reduces costs and used resources
- Assignment of default actions
 - All cases can be treated exactly the same way
 - Reduces time and resources expenses
- Import to and export from Microsoft™ Excel
 - Allows external, professional translation of ML captions

MultiLanguage Tool Web service

Product details

Pay-per-use

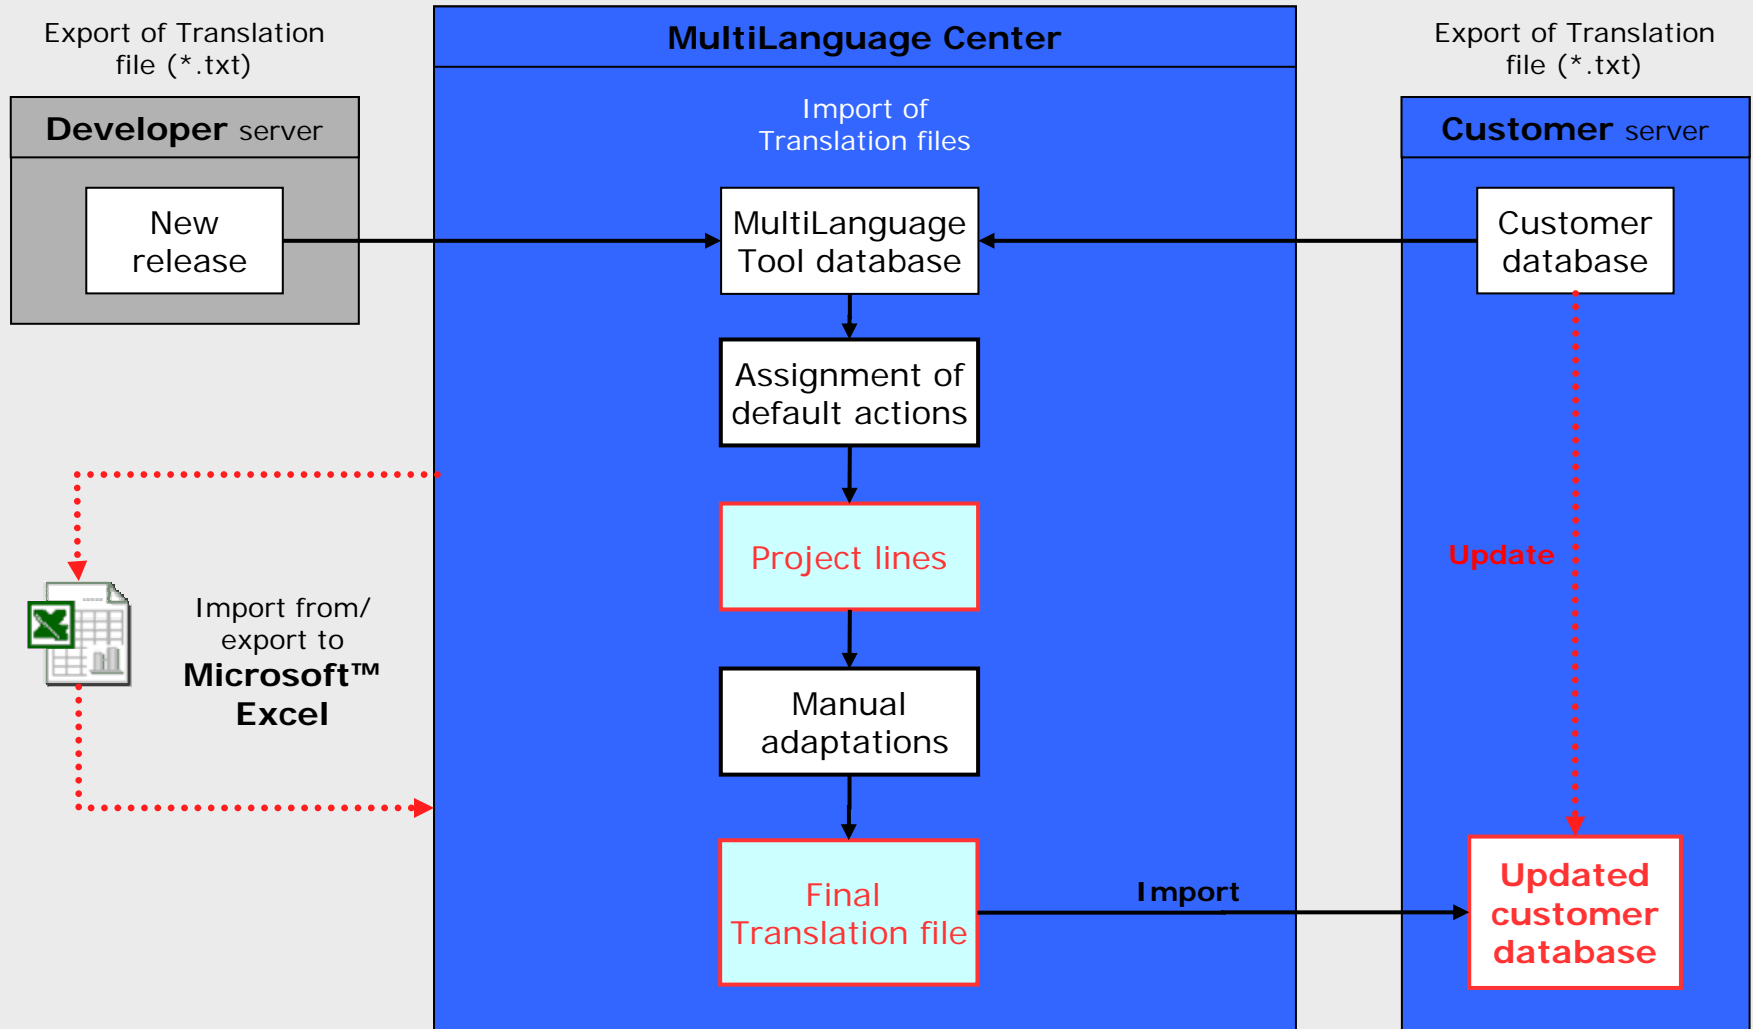

Technical facts & prerequisites

- Customer database
 - Any version of Microsoft Dynamics TM NAV (formerly Navision/Attain) since 2.6
- General
 - Developer knowledge
 - English language skills
 - Internet connection

Features

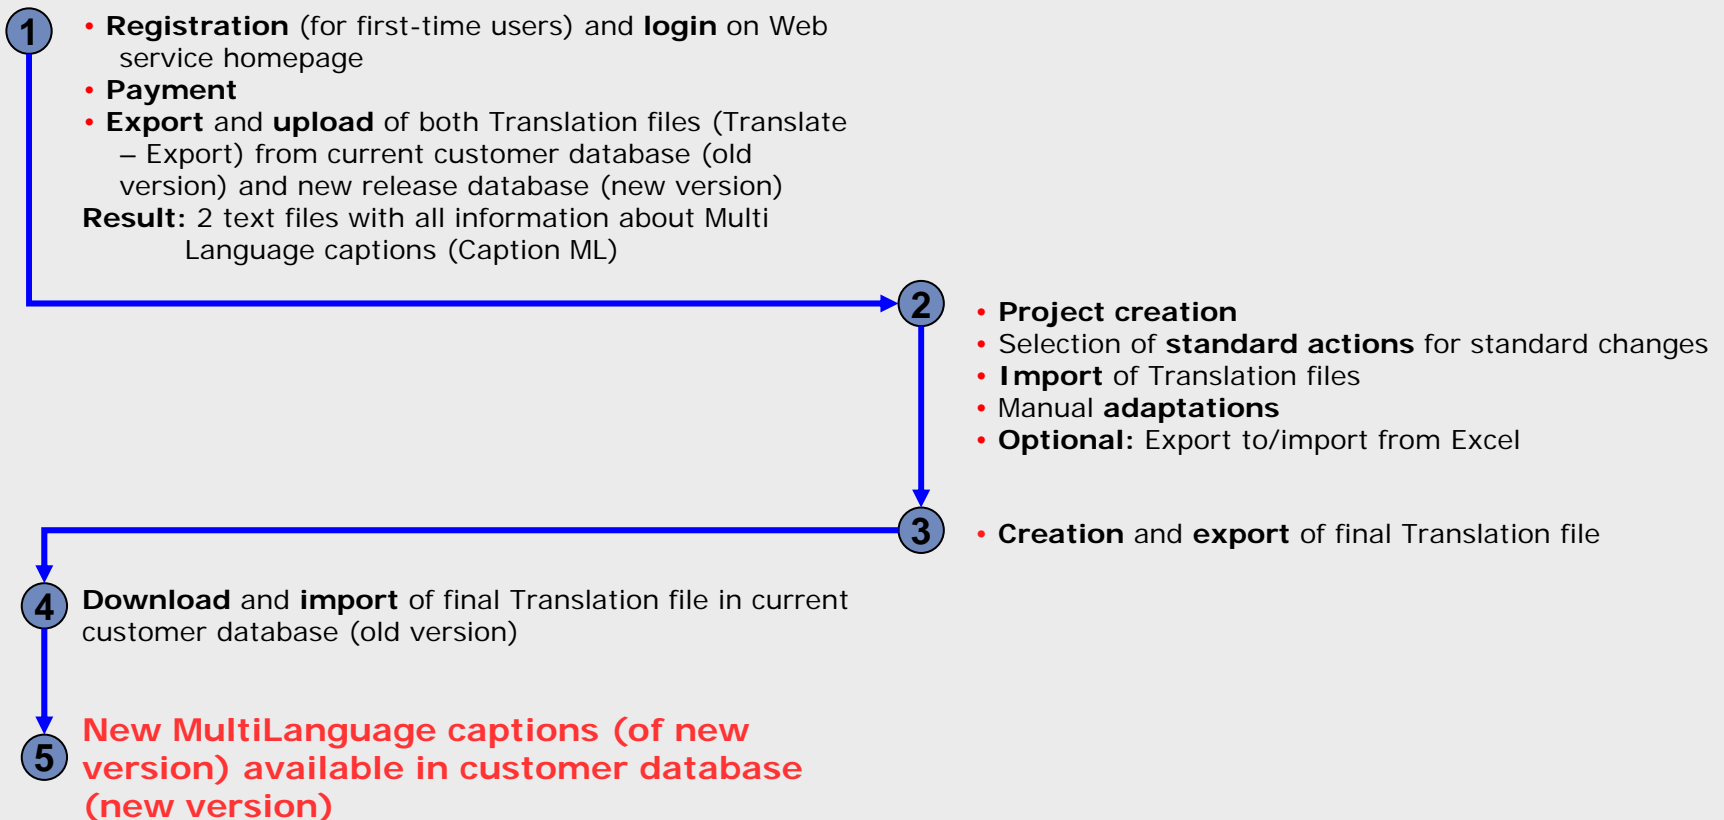

- Default actions can be set individually or in batch processing
 - Per selected line(s)
 - For categories
- Instant preview function for target version
- Assignment of lines to link corresponding ML captions
- Separation of concatenated lines to correct mistakes
- Selection of project languages
- Search function for missing translations
 - 100% reliable coverage of all parts of the database
 - 100% translated applications/modules/customizations
